**for eco-lovers only  
please don't forget!**

Osmè is a high quality organic range certified by Ecocert and in line with the Cosmebio standard cosmetic range, produced without any parabens, silicones and artificial colourings. The products are primarily perfumed with botanic essential oils, in order to offer a unique and genuine experience.

The predominant ingredient for Osmè is the Aloe Barbadensis, a plant with many properties that translate into great benefits offered by the cosmetics. The high percentage of vitamins, minerals and amino acids nourish the epidermis and help the flow of blood, guaranteeing a reinvigorating, energizing and antioxidant function.
